17 MORE WAYS

You now get more labor-saving features with THE HOOSIER KITCHEN CABINET than all the conveniences combined in most kitchen cabinets.

Mrs. Christine Frederick's famous Food Guide answers your eternal question, "What shall I cook for dinner?" The shaker flour sifter, a new Hoosier patent, cleans the flour it sifts; a complete book-keeping system is provided by the Hoosier bill file and improved want list; an ingenious cook book holder keeps your book always open or closed before you; the emergency shelf for extra canned goods provides for unexpected guests.

In all, there are 40 labor-saving conveniences in the Hoosier Cabinet. Yet, because of enormous sales, the price remains the same. You now can buy the Hoosier for less than a common cupboard cabinet, and there is no measure of the extra satisfaction it gives you.

The extras come in better health, in more time, less fatigue. You save miles of steps and hours of time that most women spend needlessly in their kitchens. This saving alone has made 700,000 women buy Hoosiers. You need one too. Get it to-morrow.

ASK PUBLIC TO PATRONIZE FIRST CARNIVAL EVENTS

Director-General Dougherty and other officials of the 1915 Carnival are doing everything in their power to prevent what they say are unauthorized affairs to which admission is charged being held during the Carnival period.

Secretary Wayne said this morning that several events have been scheduled so close to the opening of the Carnival as to interfere materially with Carnival attractions.

"These have not received the Carnival endorsement and rightfully so, for they seek to get the benefit of the advertising the Carnival does for a year without paying any percentage into the Carnival fund," he explained. "It is hoped that the people will patronize the Carnival events generously and we shall do what we can to discourage anything being 'out over' on the Carnival management."

'RIGHT OF WAY' WEEK OBSERVED BY THE Y. M. C. A.

The local Y. M. C. A. began a week's "Right of Way" campaign today to encourage its members to take an interest not only in the work of the Honolulu association but in the work of associations all over the world.

According to notices which have been sent out this will be done through "Association Men," the official publication of the national association. It is the idea of the association to have at least 150 of its members get the magazine each month. "Association Men" in each issue has something interesting to say regarding the work of 1,066,765 members of 8606 associations who are housed in 1608 buildings in 40 different lands.

Shrievalty Demands GOLD Watch---

So Grandpa Wins Silver Waltham

Watertown, Oahu, February 3, 1915.

Wichman & Co.

Gentlemen: I see by the paper that low numbered Waltham watches are not rolling in very fast, so I will give a brief account of a ticker that I have carried since 1874—about 41 years—and it is very reliable now. It has the P. S. Bartlett movements and is numbered 486,568.

It was carried a few years by Andrew Wasson, lighthouse keeper at Point Pinos, Monterey, California.

Mr. Wasson disposed of the watch when he was elected sheriff of Monterey county, California—as he THEN wanted a gold one, this one being silver.

Mr. Wasson was collector of the port at Seattle some time in the late 80's.

I have been engineer with the Hawaiian Dredging Company since they were organized. Have been on Oahu since 1900, and I am a grandpa.

With a faint hope that I may yet carry a gold watch, I sign myself, respectfully yours,

JACOB CIMPHER.

Baltimore policemen raided the Pa-tuxent Rod and Gun Club, near there, and arrested 148 persons and seized \$150 in cash, blackboards and racing sheets.

George Ellis and Harry Billings of Brooklyn were arrested by Secret Service agents who raided their plant where they made counterfeit \$10 and \$20 gold pieces.

Edwin Rest, aged 19, was arrested when he went hunting in the Washington National Zoo Park. He had bagged five squirrels and was on the trail of a deer.
